**Seeding Change**

(2018)

## **Black Bark Films with Landworkers' Alliance**

Official selection: British Documentary Film Festival, 2018

The inspiring story behind the blood, sweat and tears of nine British farmers seizing the Brexit moment to outgrow an outdated industrial food system. This film explores their daily reality and refusal to be ground down by the machinery of big agribusiness and reveals the wisdom of the old and the innovations of the young, who are bringing back the worm to the soil, the 'culture' to 'agriculture,' and the flavour to the tomato! Followed by discussion.
